WHY I-NET?

What our clients say about us:

"Their (I-NET's) EDGAR...work is exquisite and the turnaround time was the fastest we have seen in the industry. We are very pleased with their quality of work to say the least."

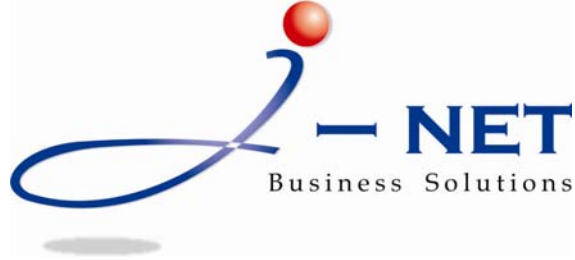

-William Tay (TBM Investment, Inc.)

"The team at InetBS has gone above and beyond with every project I give them to provide a level of service second to none."

-Jay Warpinski (Bulk Order Media, Inc.)

"You team seems to be expert in handling our needs and provide the quality which is not accessible for the price you offer"

-Jennet (A SEC Filing Agent)

Financial Typesetting

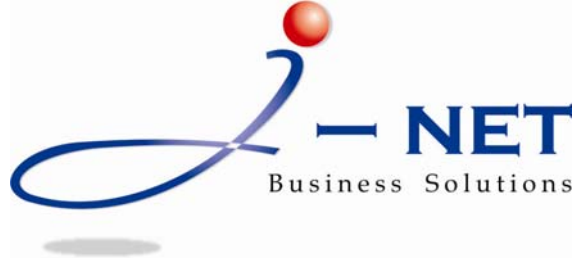

We **TYPESET** the **Financial DATA** and prepare it for printing with great accuracy, superb quality.

Our typesetting standards flow hand in hand with industry upgraded tools and software. **QuarkExpress, InDesign, Framemaker,** and many more. You name and we have it. We invariably use **Black Line** and **Caret** for all financial documents.

We can convert your EDGAR document back in to Word or any other typesetting format of your choice for printing.

we can also provide you cheap but quality printing services, so that you can save even more and still continue to charge your customers with quality uncompromised.

We can even help you offer competitive price quotes to your customers since this may be the most confusing part.

Call Center Services

We can handle the volume of expected incoming and outgoing calls reflective of your campaign.

Your management team can come for visits and interact with the representatives handling your calls to ensure quality.

We use the latest technology in the industry to handle our INBOUND/OUTBOUND CRMs. This will increase the effectiveness of your campaign and services.

We have affordable and competitive pricing options which are quite adaptable to your business needs.

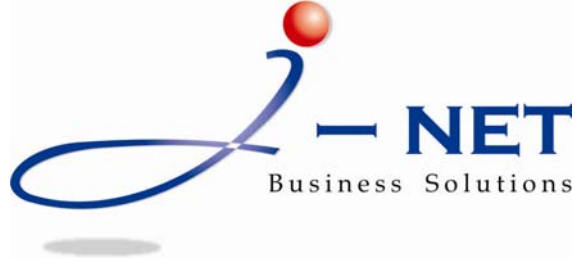

We have acquired all necessary experience in handling INBOUND/OUTBOUND call for United Kingdom, United States, and Australia. Hence we can ensure a prudent process.

With our experienced staff we ensure an optimum level of data security and run an efficient mechanism to handle mistakes, providing the best possible service to your business and/or campaign.

Graphic Design

We can help your entire art department with variety of Graphic Design services such as: Posters, Brochures, Handouts, Business Cards, Logos, Cover pages, Post cards, Power point presentations, and many more.

Project Management

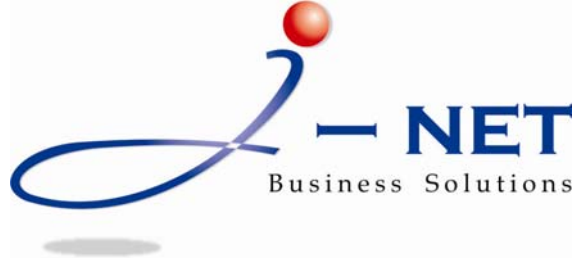

Our skilled team is responsible for handling customers concerns efficiently which allows them to develop meaningful relationships and provide a timely and complete response every time. This in turn enables all our employees to realize their own potential and understand the important role each individual plays in the organization.

Employees are our biggest asset. By delivering quality work they satiate themselves and derive immense pride and take care of the work in a manner which customers can feel proud of.

SERVERS and Connectivity:

We maintain our own dedicated server to upload and download large files. Large volume data is transmitted back and forth using the same. Our facilities in INDIA and ROMANIA have two sets of dedicated lease internet lines which never fail.

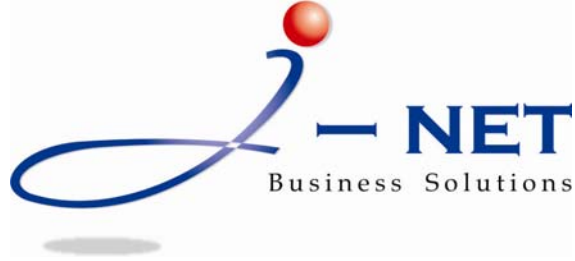

Data Security

We maintain optimum level of monitoring and security to provide safety for given data of various processes. Our agent log in to every terminal keep track of every transmission of data. Access to servers to uploads data for clients is accessible only by authorized personal. Round the clock Video monitoring is installed to deter any attempt to misplace and mis-transmit data. All of your terminal are equipped with latest anti-virus software, and strong firewalls.
